EDUCATION

BSc Interactive Media · University of York

Sep 2024 – Jul 2027 (expected) · York, UK

- Modules: User Experience Design, Developing Interactive Media, Storytelling for Interactive Media
- Year 1: 67.2% · Year 2: 72.3%

A-Levels: English Literature, Business, Psychology · Shrewsbury International School Bangkok

Oct 2020 – Jun 2024

EXPERIENCE

UX Research Intern · Arise by INFINITAS (Krungthai Bank)

Jul – Aug 2026 · Bangkok, Thailand

- Designed the full discussion guide and moderating script used across 14 qualitative research sessions for a homepage redesign study on PaoTang, Thailand's leading government-linked fintech app
- Independently moderated one complete end-to-end user research session; provided live note-taking support across remaining sessions, capturing SEQ scores, behavioural observations, and verbatim quotes
- Built the primary cross-participant rainbow sheet from scratch — synthesising findings across 14 participants and 42+ insight rows to surface confirmed patterns and contradictions in user mental models
- Produced task findings write-ups, prioritised recommendations, and a 30-slide research report presented to cross-functional stakeholders

UX Design Intern · Arise by INFINITAS

Jul – Aug 2025 · Bangkok, Thailand

- Conducted competitive analysis of QR payment flows across five major Thai banking apps, benchmarking against Apple Pay to identify behavioural friction in time-sensitive journeys
- Applied heuristic evaluation, journey mapping, and think-aloud usability testing with internal participants to surface actionable usability findings
- Identified that regulatory and security constraints - not poor design - drove existing flow complexity; recommended targeted improvements to labelling, confirmation steps, and input patterns within those constraints
- Synthesised findings into a recommendations deck presented to the DX team lead

Digital Content Intern · Ministry of Foreign Affairs (Thailand)

Jul – Aug 2023 · Bangkok, Thailand

- Supported planning and execution of a national sustainability campaign across digital channels including X (Twitter)
- Collaborated with communications stakeholders to align content strategy with objectives; managed workflows to ensure consistent messaging across channels

PROJECTS

Barley Hall Volunteer Training Guide · UX Research & Design · University of York 2024–25

- End-to-end UX research and design for a historic York attraction — qualitative interviews, accessibility evaluation, usability testing, insight synthesis, and prototyped training guide.

SKILLS & TOOLS

Research: Qualitative user interviews · think-aloud testing · heuristic evaluation · journey mapping · insight synthesis · rainbow sheet analysis · SEQ scoring

Design: Figma · wireframing · interaction design · visual design · Adobe Photoshop

Other: Blender (basic) · Microsoft Fundamentals of UI/UX Design (certified)

Languages: English (native) · Thai (native)

ADDITIONAL

Volunteer: Bangkok School for the Blind · iCare Thailand · Phaya Thai School for Babies
